

GANGADHAR PRASAD SHUKLA, Ph.D.

Professor of the Practice of Public Policy

Duke Center for International Development (DCID)

Sanford School of Public Policy, Duke University

Durham, North Carolina, USA

E-mail: shukla@duke.edu

KEY QUALIFICATIONS

Gangadhar P. Shukla is a Professor of the Practice of Public Policy, Sanford School of Public Policy, Duke University, Director of the Program on Tax Analysis and Revenue Forecasting (TARF) and co-director of Program on Budgeting and Financial Management in the Public Sector (Budget). Previously, he was a lecturer and a Development Fellow at the Kennedy School of Government, Harvard University and an Associate at the Harvard Institute for International Development (HIID). While at Harvard, Dr. Shukla taught courses at the Kennedy School and in the Economic Department, directed the Program on Tax Analysis and Revenue Forecasting, and provided technical assistance to over a dozen countries in Africa, Asia, Latin America, and Transitional Economies on tax policy and project evaluation. He previously served the government of India for twenty years in a variety of local, state and central government executive positions – with considerable practical experience in local government finance, urban development, public sector management, financial management, budgeting, government revenues, project appraisal and expenditure analysis. Dr. Shukla has a Ph.D. in Political Economy and Government from Harvard University.

GOVERNMENT OF INDIA

Permanent Secretary of Planning, Government of Uttar Pradesh, India

January 1993 – November 1994

Advised the government on the formulation of development plans and annual budget of the state for the fiscal years 1993-94 and 1994-95 and supervised the allocation of fiscal resources of over US\$1.8 billion per annum for development programs and building of infrastructure and social sector projects among government ministries/departments and public sector agencies. Analyzed public expenditures with a view to maintaining a balanced budget, and monitored programs and projects to accelerate the implementation of developmental schemes and externally aided projects and streamline the flow of funds from donor agencies to the state government. As the secretary of the State Public Investment Board, supervised investment appraisal, costing, selection, implementation, and impact analysis (program evaluation) of public sector and joint sector projects and programs. Institutionalized training programs for development of project/program formulation and appraisal skills at various levels in the government ministries and agencies.

Divisional Commissioner and Chairman Development Authority

July 1986 – August 1987

Managed urban development and infrastructure planning (transportation, water supply and sewage, non-conventional energy sources, low cost housing, slum rehabilitation) at the regional level in the state of Uttar Pradesh. Administered programs in rural development and poverty alleviation and supervised land revenue, land reform and land administration in three districts of the state with a population of over ten million.

Permanent Secretary of Personnel Management and Administrative Reforms, Government of Uttar Pradesh, India

January 1984 - June 1985

Advised the government on civil service reforms, personnel management, performance evaluation and capacity building among public sector managers. Evolved an administrative system for streamlining procedures and rationalizing the decision-making process in the state government and the public sector agencies.

Director Information, Government of Uttar Pradesh, India

July 1982 – December 1983

Implemented the program of informing and educating the people of the state using various tools of information dissemination about the scope of development projects and programs, role and duty of implementing agencies and the rights of beneficiaries. Organized the reverse process of feedback from the people to the government agencies for better program design and improved implementation procedures.

Director Textiles and Managing Director of State Handlooms Corporation

April 1979 – June 1982

Organized the financing, production and marketing for the handloom cooperatives and individual weavers in the non-formal textile sector that provides the highest rural employment second only to agriculture sector in India as part of rural industrialization program. Provided avenues for skill preservation, artisan training and design development.

District Collector

July 1973 - March 1979

Managed rural development projects especially targeted at small and marginal farmers and village artisans and implemented social sector programs including a program for emancipation and rehabilitation of bonded labor in the tribal regions. Administered the land revenue and land records system at district level including assessment and collection of land tax, irrigation dues and institutional debt finance including the loan from the banking sector.

ADVISORY AND CONSULTING PROJECTS AT DUKE AND HARVARD

Tax Policy and Tax Administration consultant for the World Bank

February 2015 – Continuing

Analyzing Tax Policy and Tax Administration Tools and Techniques for Domestic Revenue Mobilization in Developing Countries both at the Central and provincial government levels and exploring entry points for World Bank intervention.

Tax Policy consultant for the Government of Kazakhstan, World Bank

January 2016 – Continuing

Assessing the Corporate Income Tax and Personal Income Tax as applied to businesses in Kazakhstan.

Tax Policy and Tax Administration consultant for the Government of Armenia,

March 2015 – June 2016

Assessing Gaps in the proposed Armenia Tax Code of 2015 covering both tax policy and tax administration in Armenia.

Tax Policy and Revenue Forecasting consultant for the World Bank

March – June 2014

Developing Analytical Tools and Techniques for Revenue Mobilization in Public Expenditure Reviews at the National and Sub-national levels of government.

Tax Policy and Revenue Forecasting consultant, World Bank

March – June 2014

Developing analytical tools and techniques for revenue mobilization in public expenditure reviews at the national and sub-national levels of government.

June 2012

Analyzing the tax codes in the two countries with a focus on the main tax administration, tax policy and tax transparency issues affecting the performance of industries in general and agribusiness sector in particular.

Public Investment Efficiency consultant for the governments of Nigeria, World Bank

May 2012

Advising the government of Nigeria on enhancing the efficiency of capital investment by the public sector in the country.

Public Investment Efficiency consultant for the governments of Zimbabwe, World Bank

April 2012

Advising the government of Zimbabwe on enhancing effectiveness and efficiency of capital investment by the public sector in the country.

Tax Public and Value Added Tax Reform Advisor, Government of Karnataka, India

October – November 2011

Advising the Government of Karnataka in India on replacing their existing sales tax system by a Value Added Tax regime and training senior government officials in tax administration, tax policy and revenue forecasting issues related to a Value added Tax and a General Sales Tax (VAT/GST).

Environmental Tax Consultant for the Governments of Thailand, World Bank

January – February 2011

Examining and proposing fiscal policy measures for stemming environmental degradation and water, air, and noise pollution for the Government of Thailand.

Public Investment Management Consultant for the Governments of Lesotho, World Bank

November 2010 – present

Investigating the factors affecting public investment management efficiency in a country with limited scope for augmenting capital investment for the Government of Lesotho.

Tax Policy Consultant for the Thai Government, World Bank*April 2010 – present*

Examining the tax system in Thailand with a view to reforming the tax policy and strengthening indirect taxation in the country.

Capital Budgeting Consultant for the World Bank*May 2009 – present*

Assisting in the study of capital budgeting practices and the steps necessary to enhance the Public Investment Efficiency in developing countries and transition economies.

Mining Taxation Consultant for the Governments of Ghana, World Bank*September 2008 – present*

Analyzing the alternative taxation policies and the political economy of the gold mining sector for the government of Ghana.

Natural Resource Taxation Consultant for the Governments of Nigeria, World Bank*November 2008 – present*

Analyzing the taxation policies, profits sharing agreements and the political economy of the oil sector for the government of Nigeria.

Mining Taxation Consultant for the Governments of Armenia, World Bank*January 2009 – March 2010*

Analyzed the taxation policies with special focus on the royalty regime applied to minerals and metals for the government of Armenia.

Tax Policy and Revenue Forecasting Consultant for the Ghana Revenue Agencies Board, German Technical Assistance Agency*July – November 2009*

Assessed revenue impacts of discretionary changes in tax policy and tax laws in Ghana and presented a model for revenue forecasting using Revenue Receipts model.

Capital Budgeting Reform Consultant for the Government of Jordan*June – November 2009*

Advised the Ministry of Finance, Government of Jordan on creating an institutional set-up for project appraisal and program evaluation within the government for the Public Sector investments.

Fiscal Policy Analysis Consultant for Government of Belize, Inter-American Development Bank*July 2008 – April 2009*

Analyzed revenue and expenditures sides of the budget for the government of Belize with special emphasis on project/program management.

Public Policy and Public Sector Reform Advisor, Government of India*Spring 2007 – present*

Advising the Government of India in public policy and public sector reform in the civil service and training senior government officials in project appraisal, program evaluation, implementation of rural/urban development projects and service delivery by the state and regional governments at the grass root levels.

Tax Reform and Revenue Forecasting Advisor for Vietnam, World Bank*October 2007 – June 2008*

Co-authored four chapters on tax policy reform and revenue forecasting in Vietnam for a treatise based on previous project work that was completed in 2006-07.

Capital Budgeting Reform Advisor, Government of Cambodia (UNDP)*May 2007 – January 2009*

Assisted in capacity building for appraisal of projects and programs for improving the capital budgeting process and ensuring better utilization of budget funds. Delivered three programs on project appraisal and capital budgeting during 2007-09.

Revenue Forecasting Advisor, Government of Vietnam, (EU)

April 2007 – December 2008

Assisted in establishment of a revenue forecasting system to enable the General Department of Taxation (GDT), to enhance the database, develop revenue forecasting models for VAT, excises, personal and corporate income taxes, and help GDT make realistic tax revenue forecast for enhancing their overall tax collection.

Fiscal Policy Advisor, Government of India (USAID)

November 2003 – June 2007

Examined the policies and practice of public sector expenditures and raising government revenues in sub-national governments in India with a view to enhancing revenues through streamlining the expenditures and introduction of a value added tax; conducted expenditure analysis and assessed the existing capacity for tax policy analysis and investment appraisal in three state governments of Uttarakhand, Karnataka, and Jharkhand.

Tax Reform Advisor, Government of Vietnam (World Bank)

May 2006 – April 2007

Analyzed the overall tax system in Vietnam for initiating major changes in tax policy and tax laws and establishing a revenue forecasting system in order to assess the revenue implications of proposed changes in tax policy and tax laws. The reform project covered personal income tax, corporate income tax, value added tax, special consumption (excises) tax, land tax, trade taxes, property tax, land and property transfer tax, and natural resource tax.

Revenue Forecasting Advisor, Government of Philippines (World Bank)

April 2006 – June 2007

Assisted in establishment of a revenue forecasting system to enable the Department of Finance, the Board of Internal revenues and the Board of Customs to make realistic tax revenue forecast for enhancing their overall tax efforts.

Budget Reform Advisor, Government of Belize (Inter-American Development Bank)

September 2004 – June 2006

Analyzed and evaluated the public sector expenditures in the government of Belize for the period 1999-2005, proposing steps for enhanced efficiency in implementation and management of infrastructure projects and social sector programs, examined the expenditure mix between capital budgeting and recurrent costs, and advised on reduction of public sector debt and promotion of decentralization of service delivery between the center and the local governments.

Budget Reform Advisor, Government of Russian Federation (IMF)

October 2003 – December 2003

Evaluated the existing budget classification system and the budget code in the Russian Federation, presented suggestions for budget re-classification in accordance with GFS, revision of the budget code, and introduction of a single treasury account system.

Fiscal Policy Advisor, Government of Haiti (IADB)

November 2002 – October 2003

Analyzed the existing fiscal policy and tax structure with a view to increasing revenues and rationalizing the existing taxes, tariffs and contributions to social security in the country, and advised the government on revenue estimation and revenue forecasting.

Fiscal Policy Advisor, Government of Ghana (USAID)

November 2001 – September 2003

Worked on a Tax Reform project, analyzing fiscal policy issues and forecasting tax revenues for the various tax agencies, assessing the tax analysis capacity of policy makers and tax administrators in the government, examining the structure and functioning of the revenue board, organizing a four week training program on tax analysis and revenue forecasting, and advising the Ministry of Finance on establishing a tax policy unit.

Fiscal Policy Advisor on Tax Reform, Government of Tanzania (USAID)

July 2001 – December 2003

Analyzed the overall tax system in the country and prepared tax reform proposals that would also impinge on the mining sector, which has been growing in the country. The project involved the evaluation of training needs among policy advisors and tax administrators and also delivery of training programs.

Fiscal and Budgetary Reform Advisor, Public Sector Reform Project, Government of Tamilnadu, India

October 1999 – August 2002

Assessed the administrative structure and capacity in the sales tax department for implementing a value added tax system strongly advocated by the Central Government, and analyzed the budgetary implications of the current policy of providing subsidized services such as electricity, primary health care and education at different levels by the public sector. Also estimated the unit costs of these services with a view to assessing the extent of subsidy involved in these services and introducing a system of “user fees” as part of the overall fiscal and budgetary reform in the state.

Fiscal Policy Advisor, Government of Jordan

April 2000 – June 2002

Advised the ministry of finance, government of Jordan, on the establishment of a fiscal policy unit for managing public sector expenditures and improving revenue policies of the government. Developed the structure of the units, defining inter-departmental and intra-ministerial linkages, and prepared a program for capacity building and skill enhancement in the fields of tax and expenditure analyses and revenue forecasting for the personnel of the finance ministry and the tax administration.

Fiscal Policy and Administrative Reform Advisor for the Mining Sector, Government of Tanzania (USAID - EAGER Project)

January 1999 – December 2000

Analyzed the elements of the existing fiscal policy and administrative practices as applied to the mining industry and proposed a fiscal system that would generate enough revenues for the Tanzania Revenue Authority and, at the same time, promote sustainable growth in both formal and non-formal sectors of mining. Following this study, the government of Tanzania and USAID decided to implement a two-year comprehensive reform for the extractive industries.

Fiscal Reform Advisor, Public Sector Reform Project, Government of Tamilnadu, India

March 1998 – December 1999

Examined the existing tax structure of the government of Tamilnadu with a view to reforming the indirect tax system and introducing a value added tax (VAT) in the state. Advised the state government on the administrative steps involved in the introduction of a revenue neutral state level VAT.

Investment Appraisal Consultant (World Bank)

July 1996 – December 2000

Advised in capacity building program for World Bank economists and sector managers and taught project appraisal in 6 programs offered at the World Bank head office in Washington DC. Also, advised on the financial and economic evaluation of a water and coastal pollution project in Brazil and a power transmission project in Mexico.

Fiscal Reform Advisor, Joint Research Project of Harvard Institute for International development and the Ministry of Finance, Government of Japan

January – July 1997

Reviewed the existing fiscal system in Vietnam and developed a proposal for an overall tax reform of both the income and the consumption taxes with special focus on the promotion of foreign direct investment. Identified the existing gaps in administrative practices, particularly as applied to the taxation of foreign businesses, and suggested ways to streamline the procedures and reduce the costs of administration and costs of compliance.

Oil and Natural Gas Fiscal Policy Advisor, Impartial Oversight and Strategic Guidance for Privatization and Market Reform Programs, Russian Federation (USAID)

August 1996 – June 1997

Analyzed a series of alternative proposals for taxing the mining and oil industry under consideration of the Ministry of Finance and the Duma and developed a tax model for the oil and natural gas sectors in Russia.

Tax Reform Advisor, Tax Study in Nepal (UNDP)

December 1996 – March 1997

Reviewed the existing trade issues between India and Nepal and prepared a background paper for the reform of trade taxes, property taxes and land related taxes in the country.

Fiscal and Budgetary Reform Advisor, Guyana-Public Sector Management program (Inter-American Development Bank)

February 1996 – July 1997

Developed a proposal for an appropriate regime of “user charges” that would fund the rehabilitation and sustenance of the hydraulic system and the sea defenses in the country that were completely dilapidated. Prepared a study on the abolition of export tax on rice export from Guyana to the countries of European Union and examined the alternatives for capturing rent from rice export.

Project Evaluation Advisor, Indonesia Urban Development Project

January – February 1993

Developed a manual outlining the methodology for appraising urban projects to be formulated and implemented by local governments in Indonesia.

Tax Reform Advisor, Malawi Tax Reform Project (USAID)

June 1991

Conducted a workshop on “Tax Policy Analysis” for tax administrators and finance ministry officials of the government of Malawi.

Management Development Consultant, UNDP

September 1990 – February 1991

Headed a Research Team for Evaluation of the “Management Development Program” of UNDP, conducted by John F. Kennedy School of Government, Harvard University. The outcome of the study was a set of wide ranging recommendations for reform that led to fundamental changes in the programs supported by UNDP.

Investment Appraisal Consultant, HIID and Korea Development Institute

July – December 1989

Conducted financial, economic, distributive, and risk analyses of four World Bank aided projects of South Korea (Samsung Electronics, Bookook Steel, Korea Steel and Chemicals, Dong Yang Steel) under the auspices of HIID and Korea Development Institute.

Fiscal Policy Consultant for the Mineral Sector, Pacific Islands Development Program, East-West Center, University of Hawaii

May 1989 - March 1990

Reviewed the fiscal regimes as applicable to the mining sector in the Pacific Basin countries, analyzed the revenue impacts of the various alternatives for the governments and the investors and proposed

recommendations for adopting an appropriate tax regime that would encourage investment and, at the same time, will give the governments their fair share of revenues.

TEACHING ASSIGNMENTS

1. Regular Courses and Executive Education Programs on Campus
