

CONCURRENT GRADUATE CERTIFICATE IN INTERNATIONAL DEVELOPMENT POLICY (IDP)

The Master of International Development Policy (MIDP) Program offers a Certificate in International Development Policy (IDP) to students currently enrolled in other full time graduate programs. To earn the certificate, the following course requirements must be fulfilled prior to, or in conjunction with graduation from your degree program:

1. Development Management Seminar (3 credits)
2. Development Economics Seminar (3 credits)
3. International Development Elective (6 credits)

Total required for completion of certificate: 12 credits (*a minimum of 6 credits must be Duke University courses*)

APPLICATION PROCESS:

- The [Online IDP Certificate Application](#) is required for admission, and applications are accepted on a rolling basis. Applicants will be admitted on a space available basis in October and March of each year, prior to course registration. Overall enrollment in the certificate program is limited to 30 students.
- Students enrolled in the Graduate School must also complete the [Graduate Certificate Program Application](#) as required by their home department, and upload it to the [Online IDP Certificate Application](#).
- You will be notified by MIDP if your application has been approved, and asked to formally accept enrollment before the certificate is added to your record.
- Students may begin taking courses toward completion of the certificate before they are officially enrolled. ***Once the certificate has been added to the academic record it cannot be removed.*** Should the student fail to complete the requirements by the end of their graduation term, the certificate will appear as 'discontinued' on their academic record. In addition to the certificate requirements, one must successfully complete their concurrent, primary graduate degree. Failure to earn the primary degree will automatically result in the certificate being 'discontinued'. Once added to your record, you will have priority access during the first 48 hours of registration to MIDP classes, which is reserved exclusively for MIDP fellows and IDP Certificate seekers.
- Students who have completed the requirements without being officially enrolled in the certificate may have it added to their academic record in their final semester of study. Submission of the [IDP Certificate Completion Form](#) is required. Graduate School students must also complete and submit the [Graduate Certificate Program Application](#) as required by their home department. The deadline to submit this completion form and have the IDP Certificate added to a record for Fall graduates is **October 1** of their final semester. The deadline to submit for Spring graduates is **March 1** of their final semester.

APPROVED COURSES:

Below is a list of courses approved to count towards the IDP Certificate. *Space is not guaranteed in any particular course.* Courses vary from year to year depending on faculty availability and content priority in each program. PUBPOL classes with course numbers 590, 789, or 790 may be applicable to the certificate, but are not listed below as their topics and titles change from year to year. Please check DukeHub for the most current, available courses. Neighboring universities may be accessed through their own registrar sites.

In order for a class to be counted towards the certificate, the content must focus on international development. If you have questions or are interested in counting a class towards the certificate that is not listed, please upload a current or past syllabi with your online application to be reviewed.

Currently enrolled IDP Certificate students may submit syllabi for upcoming semesters via email to Stephanie Lowd at Stephanie.Lowd@duke.edu to be reviewed for approval. **Non-listed courses will only be reviewed during the bookbagging period of each semester. Please see the Registrar's website for these dates each semester, and plan your course load accordingly to ensure you are fulfilling needed requirements for the certificate.**

A second course from the Development Management or Development Economics category may also serve as an International Development elective. One elective must be fulfilled from the approved elective courses

DEVELOPMENT MANAGEMENT SEMINARS (MINIMUM 3 CREDITS REQUIRED)

PUBPOL 210S Anthropological Perspectives on Development (3 credits)
PUBPOL 590S.01 Water Cooperation and Conflict (3 credits)
PUBPOL 590S.30 Health Care Policies in Developing Countries (3 credits)
PUBPOL 590S.50 Assisting and Understanding Development (3 credits)
PUBPOL 633 Population, Health, and Policy (3 credits)
PUBPOL 707.01 Capacity Development (3 credits)
PUBPOL 721S.01 Institutional Design for Environmental Management and Sustainable Development (2 credits)
